TRENDS 2018

"This year's lifestyle trends reflect the growing desire for good design, innovative thinking, environmental care, authenticity and slowing things down. With Origin of Life we feel the need to embrace nature; Casablanca to Savannah is all about enjoying life at a slower pace and bonding with the wild; Cuban Summer celebrates the island's special energy; and Retro Florals takes us on a cosy journey back in time."

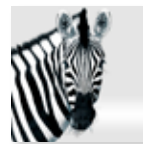

Simi Gauba
Design Manager

ORIGIN OF LIFE

ECO is our true nature. Plants. Animals. Life. Everything is connected. Inspired by the beauty of the organic world, from the stars to the oceans, we dive into a universe of natural colours. Pantone's colour of the year is 'Greenery' for a reason. Much more than just a colour, this symbolises renewal, earth, eco-living and saving flora and fauna.

CASABLANCA TO SAVANNAH

Enchanting Africa is entering a new age of optimism. Entrepreneurial and cosmopolitan, the continent is fusing local and international influences in exciting, unique ways. Intriguingly, while buzzing with life and energy, Africa also invites us to slow down and breathe; to embrace colour and local crafts; to follow the call of the wild.

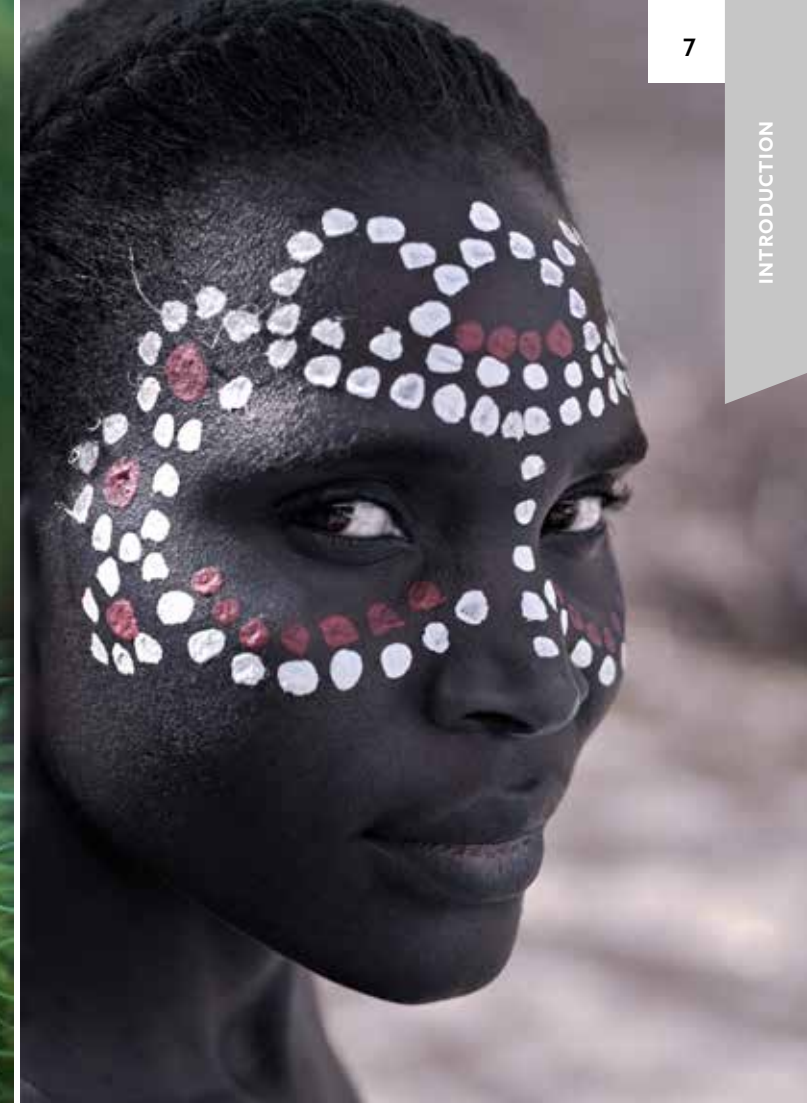

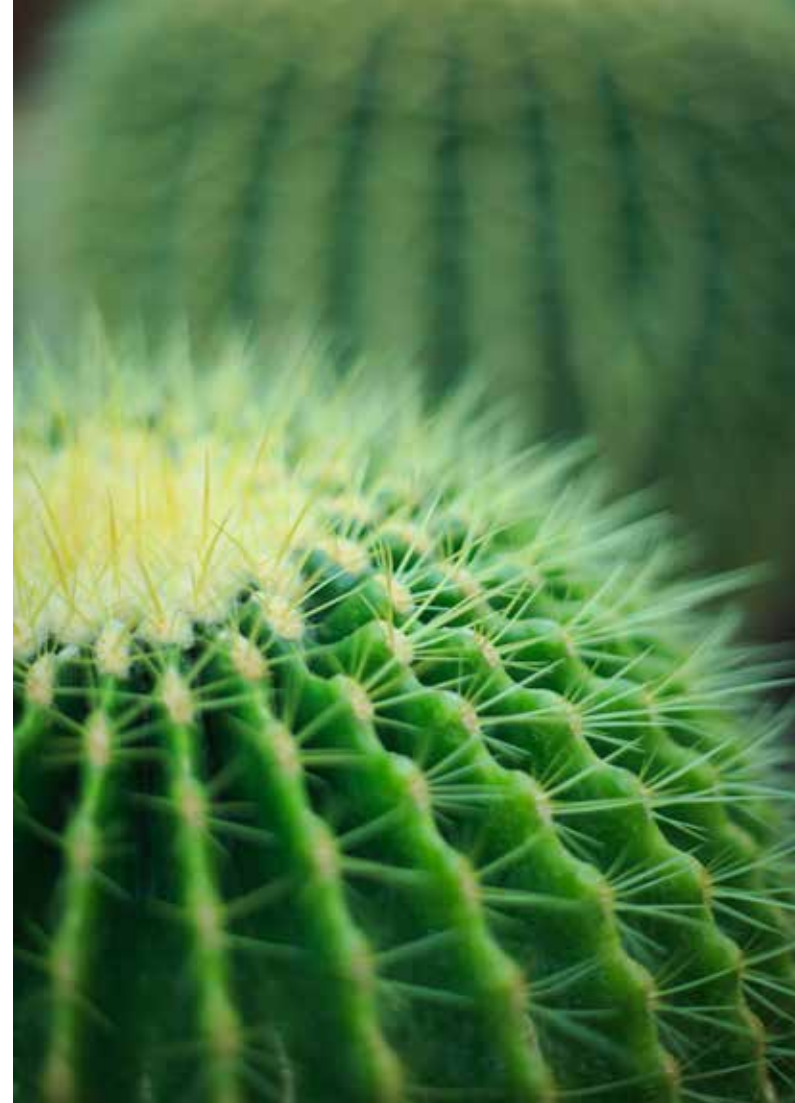

CUBAN SUMMER

Boisterous, vibrant and colourful, Cuba touches all the senses all the time. The aroma of cigars, the taste of rum, the bright coloured walls, and the life-enriching music. We plan to bring Cuba to your table this year, in the form of vivid tones, vintage and colonial furnishings and tropical-inspired accents. Enjoy!

RETRO FLORALS

More cucumber sandwiches vicar? It's time to celebrate classic Englishness and the 70s revival. Take a step back in time with sweet florals, which capture "a granny's favourite wallpaper" vibe. Make everyone feel right at home by treating them to a shabby chic mood that's just the right amount of vintage. Pop the kettle on, it's time for tea.

ecoecho®

THE NEED TO NURTURE NATURE

The demand for eco-conscious products keeps gathering steam. To help meet this, the Duni ecoecho® range provides today's consumers with an easy way to create top-quality table settings, which match their passion for the environment.

The market-leading range offers eco-conscious plates, glasses, cups and cutlery – as well as compostable unicoloured and design napkins. These not only add goodfoodmood to any dining occasion; they also help pave the way to a more sustainable future.

To qualify as ecoecho®, a product has to meet a high standard by fulfilling at least two of the following criteria:

- Renewable – made from plant-based fibres
- Compostable – certified EN 13432 or ASTM D6400 as compostable in industrial facilities
- Responsibly sourced – for instance, FSC®-certified forest fibres
- Resource efficient – for instance, made from recycled materials

NAPKINS WITH A CONSCIENCE

Most of our unicoloured napkins, and some design napkins, meet the stringent ecoecho® criteria – something we are delighted about. In practice, this means they are responsibly sourced, FSC-certified and compostable too. Our tissue napkins have already carried the Swan Ecolabel for many years.

MINDFUL MATERIALS

For all our napkins, we only use virgin fibres from forests that are FSC®-certified as responsibly managed. These have a low carbon footprint and support our strategy to protect forests and biodiversity.

CARING COLOURS

The water-based inks and dyes we use in all our napkins don't contain the solvents that other inks and dyes do. That means they contain no harmful chemicals. What's more, they are approved for use in food contact and compostable materials.

BAGASSE
Made with natural fibres from sugar production, Bagasse is a great example of upcycling. Once composted it turns to soil in just a few weeks.

PLA
Compostable PLA is made from surplus renewable material: fermentable corn starch. Bioplastics such as PLA offer society a way to reduce dependence on fossil fuels.

rPET
Eco-conscious rPET is made from recycled plastic bottles and, once used, can be recycled again. Typically, it has a 50% lower carbon footprint than virgin plastic. Duni rPET products contain up to 80% recycled plastic. Food safety rules mean that the other 20% must be virgin plastic.

STEARIN

Renewable Stearin is made from vegetable or animal fats and oils. The Swan Nordic Ecolabel on our stearin candles verifies they are made from 100% traceable and renewable material.

ecoecho®

To qualify as ecoecho®, a significant part of the product must live up to at least two of these environmental standards: resource efficiency, renewability, compostability or responsible sourcing.

The OK Compost label, from the certification body Vinçotte, indicates that the product is suitable for industrial composting and meets the stringent requirements of the European standard EN 13432.

The Forest Stewardship Council® (FSC) certification ensures the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

The Swan Nordic Ecolabel identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of 90% renewable materials and minimise soot emissions.

EASTER

Spring flowers paint the landscape. Happy bunnies play in the long grass. Colourful eggs fill the air with fun. Easter is here! It's time to celebrate warmth, togetherness and new beginnings; time to enjoy good food and good company.
